## THORBURN'S SEED DISPLAY CABINET

This novel cabinet is 30 inches high and only 15 inches wide—a convenient size for standing on a counter. It has 40 compartments for vegetable, and 39 for flower seeds. Each compartment holds 10 (or more) packets. The cabinet will thus hold 790 (or more) packets in 79 distinct sorts, the whole packet being visible. No matter how few packets are in the compartments, they can stand to the front, and the same uniform display is maintained as well when the cabinet is nearly empty as when it is full. When exhibited in this cabinet, our handsome colored lithographic packets will sell themselves.

Price, \$4, free on board; no charge for boxing.

## HANDSOME COLORED LITHOGRAPHIC PACKETS

We offer the following varieties of vegetable and flower seeds in handsome colored lithographic packets. These packets are not to be confounded with the cheap sorts usually sold. They are put up fresh by ourselves, of our very best seeds, and contain much more seed than is generally supplied in such papers.

### VEGETABLE SEEDS IN COLORED PACKETS

Beet, Extra-Early Egyptian.	Celery, Improved White Plume.	Parsley, Moss Curled.
“ Crimson Globe.	“ Perfection Heartwell.	Pumpkin, Large Cheese.
“ Early Blood Turnip.	Cucumber, White Spine Improved.	Pepper, Large Bell.
“ Electric.	“ Cool and Crisp.	Radish, Early Scarlet Turnip.

## TRADE PRICE-LIST OF

## SEEDS

OFFERED BY

J. M. THORBURN &amp; CO.

*Growers and Importers of Seeds*

NEW YORK

## TERMS

NEW YORK, January 1, 1903.

ACCOUNTS ARE DUE net on June 1st, 1903, without regard to the date of purchase; or a discount of one per cent a month will be allowed on all payments made before June 1st. Goods purchased after June 1st are Net Cash on October 1st, and after October 1st, Net Cash on January 1st, following. Grains, Grass, Clover and Canary Seeds, Onion Sets and Potatoes are Net Cash.

References are requested from unknown correspondents.

The quotations in this list are intended for the **Wholesale Trade** only, and are subject to change without notice. All prices apply only to the quantities quoted—10 pounds or 10 bushels, and 1 pound or 1 bushel. Smaller quantities will be charged at a higher rate, and no seed will be invoiced at less than 10 cents for a quarter-pound. Where two grades are quoted the best is always sent unless the order specifies otherwise.

In the absence of instructions when shipping, insurance will be effected at our discretion.

For the past fifty years we have made a specialty of Vegetable and Flower Seeds in bulk, as well as of Peas and Beans. We also put up, fresh every year, garden seeds in papers for retailing. All orders are executed with great care and dispatch.

*Messrs. J. M. Thorburn & Co. give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.*

J. M. THORBURN &amp; CO.

36 Cortlandt Street, New York

# J. M. THORBURN & CO.'S

## Trade Price-List for 1903

 A Telegraphic Cipher is attached to each article, which will enable orders to be sent by wire at comparatively little expense. For example:

Two Abolish means two bushels Extra-Early Valentine Beans; or Fifty Amber means fifty pounds Egyptian Beet, etc.

 The Code and Cipher herein annul all formerly printed.

 On certain varieties in large lots we are prepared to quote lower prices by mail or telegraph.

## FERN BALLS

We have imported some of these interesting Ferns from Japan. They are easily grown and occupy little space, being suspended from the roof. In the fall the leaves die off, and the plants need a rest for two months, during which time it is recommended to keep them out of doors. The frost does not hurt them, but when taking them in, they should be gradually thawed out. We handle only the long-leaved variety. Price, 7- to 9-inch size, \$24 per 100.

“ Groff's New Hybrid Seedlings. This splendid new strain embraces thousands of varieties, including slate blues, smoky and sooty combinations, in great variety. Large bulbs . . . . .	2 50	22 00

### Best Forcing Gladiolus, “May”

Fine pure white flaked rosy crimson, superb spike. The best of all for forcing in greenhouse. \$2 per 100, \$18 per 1,000.

### Gladiolus Hybridus “Princeps”

Hybrid between the rare African *Gladiolus cruentus* and a selected Childsii seedling. Grows 4 feet high, with broad, healthy foliage. Spike erect and often 18 inches long, bearing 16 to 22 immense broad-petaled circular flowers, opening flat and perfect, 5 to 7 inches across. Color true salvia-scarlet, with cream-white feathering on lower petals. Endures the sun and wind well, and opens perfectly to the last bud in water. Blooms normally in August, but may be had late in October by delaying planting. Forces splendidly. Has received an Award of Merit and Diploma of Honor at American Institute Fair, New York, 1901 and 1902, and Award of Merit Royal Horticultural Society, London, England, 1901. 40 cts. each, \$4 per doz.

**Whale-Oil Soap.** In 1-lb. boxes, \$1.25 per doz.; in 2-lb. boxes, \$2.25 per doz.; 100-lb. keg, \$6.

# NOVELTIES FOR 1903

We beg to invite the special attention of the trade to the following two articles as decidedly worthy of cataloguing. We *know* everything claimed for them to be strictly merited.

## THE ONLY REALLY Dwarf Salvia Splendens, "Lord Fauntleroy"

The illustration is engraved from a photograph of **one** plant, measuring only 18 inches high from the ground to the tips of the spikes. This is a fair average specimen, and we have found in two years' trial that it comes strictly true from seed. It will at once be seen that for bedding this new Salvia is fully as suitable as geraniums in respect to height and compactness, while in brilliancy of color it eclipses anything in nature. We have counted over one hundred spikes of bloom on a single plant. The foliage is of a very rich dark green color, beginning right at the ground and rising no more than 10 inches above, while the 8-inch flower-spikes stand erect and clear above the foliage. For bedding in masses alone, or with plants of equal height, or for borders around beds of taller plants, we know nothing that will be so effective.

Retail price, 25 cents per packet

To the trade, 10 pkts. for \$1.75; 50 pkts., \$6.50;  
100 pkts., \$10; 500 pkts. and up at \$9 per  
100 pkts.

Electros, 50 cts., or free with order for 100 pkts.

## Albert's Plant-Food

THE BEST FERTILIZER FOR HOUSE PLANTS

The style of the very handsome tins in which this celebrated German Plant-Food is distributed are given on the outside of each tin. It is also much more convenient for mailing than any style of fertilizer package now on the market.

It is to its *quality*, however, that we attach most importance, the analysis being as high as it is possible to make a chemical plant food, which at same time can be used without risk of injury to the plants.

It is a scientific preparation containing in a highly concentrated and easily soluble form the food elements required by plants. It is odorless, clean to handle, quick in its action, and unequalled in its effects. Inside each tin is a small spoon holding the exact quantity required for dissolving in a quart of water. By its use plants acquire a sturdier growth, fuller development and a manifold increase in bloom. For palms, ferns, India-rubber plants, bulbs, and all kinds of pot-plants, it is by far the most complete, most effective, most economical and easiest applied fertilizer made.

We are **sole agents for the United States**, and as an inducement to catalogue a really genuine article that will sell well, we offer it at the following low prices:

Per 100 tins, \$9; per case of 200 tins, \$17. Electros free with order for 100 tins.

The retail price is 15 cts. per tin, or by mail 8 cts. extra.

J. M. THORBURN & CO., 36 Cortlandt Street, New York
